

THE NIMBUS

SMALL FOOTPRINT DEPALLETIZER

The Nimbus combines the best features from two of our best-selling machines to create a new, low-cost depalletizer that's optimized for small spaces and lower speed applications. It expands the cutting-edge features of our patented turntable design, providing additional accumulation and the ability to fold down and stow the rotary table—further reducing the machine's footprint when not in use. This innovation, combined with our Can-i-Bus' pallet lift and layer sweep design, creates a compact, efficient can depalletizer with a discharge height that allows for excellent can drop and many discharge angle options. This machine is essentially silent (no vibrator) and requires minimal real estate on your production floor.

TECH SPECS

- **Air:** 1 CFM at 40PSI
- **Voltage:** 110-115VAC 1ph or 220VAC 1ph
- **Lift Capacity:** 200 lbs (91kg)
- **Max Pallet Height:** 72" (1829 mm)
- **Weight:** 800 lbs (360kg)
- **Controls:** Siemens 4" HMI Touchscreen

STANDARD FEATURES

- Rated to 50cpm (3000 CPH)
- Narrow-in Narrow-out Configuration
- Belt Driven Sweep / Actuator
- Accepts standard 44"x56" (1120mm x 1420mm) pallet size
- Powder Coated Mild Steel, Stainless Steel, and Aluminum Construction
- Rotary Table Discharge
- Safety Interlock Door
- Numerous discharge configurations
- Easily loaded and movable with pallet jack
- Twist rinse cage with 1/4" (6mm) stainless rod guide rails & stainless rinse tunnel

ADD-ON FEATURES

- CE certification package

DIMENSIONS

- **Running:** 171" L x 93" W x 86" H
 - 4344mm L x 2362.2mm W x 2172mm H
- **Storage:** 87" L x 93" W x 86" H
 - 2210mm L x 2362mm W x 2172mm H
- Requires 115" (2914mm) ceiling clearance
- **Discharge height:** 75.5" / 1918mm
